

# SERENITY CHANGE

Let your thoughts over fill the earth like morning  
mist on the ebb and flow of all things  
within 1000 celestial spheres in the air. To  
each day (except the night) of the year the  
soothe of the sun and moon and the  
softness of the wind. Peace and  
serenity in the heart of the world.  
For the soul is the most precious of all things  
and the heart is the most precious of all things.  
I change from earth to the realm of the  
great and the good and the beautiful.  
Ourselves from the realm of the  
great and the good and the beautiful.
